- xs10307-I Pink/Blue Lg Gingham

Temporary Out Of Line

- x6819-B Blue Bengal Stripe

REMINDER FOR REPAIRS:

When submitting repairs, it is necessary to fill in any/all information you have about the make-up and details of shirts.

If there are multiple fabrics, with multiple details, you need to itemize these details to the best of your ability.

Give us fabric #, any contrast fabric with specific placement, button hole and/or button stitch colors, monogram colors & button.

The reason this information is critical, the repair paper is what the production floor works from, so if not all the information is on this sheet, there is a good chance details will be missed.

Thank you for working with us , to deliver to the best of our ability.
